AB SUSTAINABILITY INVESTMENTS

CashClip — Vision & Roadmap

The plan to make it the talk of the town.

Prepared for Jorge Ballen · June 2026 · Draft v1

THE ROADMAP — IN ORDER

1 Account Unification NOW

Unity, ironSource & Tapjoy brought under one identity — same company name, same info everywhere. They're all one corporate family now, so verifying Unity passes the validation across automatically. Foundation laid.

2 New Expo Account NEW

The home base for building & shipping the next version — EAS builds, OTA updates, and the app's identity all live here. To be unified to the same company name as everything else.

3 Games Inside the App NEXT VERSION

Playable game offers pulled in through the unified Unity / ironSource / Tapjoy family. Rides a new native build (≥39) with the adapters baked in.

4 TikTok Business NEXT VERSION

Bringing TikTok into the mix — for growth/marketing and/or as another offer source. Set up the careful, one-step-at-a-time way, with its own credentials.

5 The Big Idea TO DEFINE

The centerpiece — the full vision Jorge is shaping around the whole app. To be detailed and slotted into the plan, in his exact order.

THE EXTRAS WE'LL NEED

Each new piece brings its own credentials. Every one set up the per-credential way — one named secret per key, no bundling.

- New **Expo account token** (the new account's EAS token)
- Unified **ad-network keys** — Unity / ironSource / Tapjoy — baked into the build
- **TikTok Business** credentials (its own set)

ONE IDENTITY — USE EVERYWHERE

- Company name: `AB Sustainability Investments` (exact spelling, every dashboard)
- Website: `absustaininvest.com`
- Contact email: `support@absustaininvest.com`
- App: `CashClip` · domain `cash-clip.app`

OPEN QUESTIONS

- **New Expo account** — already created, or still to do?
- **The big idea** — the core experience, new features, audience, and how the new version makes money.
- **Order** — what comes first vs. later, in Jorge's own sequence.
